MS. NHUNG NGUYEN, MANAGING DIRECTOR
6 THANG LONG STREET, 2ND FLOOR
SPRING CENTER BUILDING, W. 4, DISTRICT TAN BINH,
HO CHI MINH CITY, VIETNAM.

Dear Ms. Nguyen,

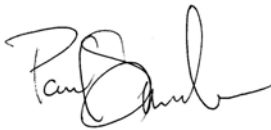

As someone with experience in software development outsourcing, I did significant research before selecting Orient Software to develop my website.

I am quite pleased with the finished product and value I have received. There are three things which are most impressive and cause for me to write this recommendation unsolicited:

- ◆ When there were issues which were not explained in detail in the original SOW you chose to go with the client (me) rather than argue over minor details.
- ◆ Your staff followed instructions rather than doing it their way, without argument and yet they still offered suggestions for making my site better.
- ◆ Your people are very talented. Though I only provided a concept - your people visualized that extremely well.

Clearly I will continue to use Orient. I have included a bonus in the last payment to show my appreciation. I expect others will also be so pleased and reward you with more business. You may have your prospective clients call me for a reference.

Thank your staff for a job well done,.
